Note 1: Interest calculations & when interest is credited
Type A: calculated on minimum monthly balances, credited at month end
Type B: calculated on daily balances, credited at month end
Type C: calculated on daily balances, credited at maturity or, if earlier; other than on maturity, interest may be credited to your access account
Type D: no credit interest payable

Note 2: Only available if the account holders nominate one person to operate.

Note 3: If one withdrawal is made in the month, no bonus interest is paid in that month.

Note 4: No cash or cheque deposits or withdrawals, all deposits and withdrawals must be made electronically.

Note 5: Withdrawable at maturity. We may allow early withdrawals in cases of hardship or special need. We may also reduce the interest to nil. On maturity, we will automatically re-invest your term deposit in the same type of term deposit as you originally chose, unless you have told us otherwise. Normally we will ask you, when making your term deposit, what you want to happen on maturity.

Note 6: Bonus Rate paid on the last day of the month if at least one deposit of \$500 and no withdrawals made in the calendar month.

Note 7: Once the promotional period ends, accounts will earn the base rate applicable at that time.

Note 8: A minimum balance of \$1 must be maintained otherwise no amount is offset against the Minimiser Home Loan. The offset only applies if the Mortgage Offset account and the loan account are in the same names.

Our acceptance of your application to open a Mortgage Loan Offset Account operates as a variation of the method of calculation of interest under your home loan contract as follows:

- a) When calculating interest on your home loan, the unpaid balance used for the calculation of interest will be reduced by the Offset Balance
- b) We calculate the Offset Balance by multiplying the balance of your Mortgage Loan Offset Account, at the end of the day, by the offset rate. The offset rate is the current Minimiser Home Loan rate
